

One Piece Textile Fabric Installation Guide

The textile fabric material comes in one piece, so putting it in a cylinder tube is impossible. Therefore, we fold it up and put it in a box. Once you receive the product, you may notice some creases, which are nothing as they will go away once it is hung on the wall.

How to Hang Wallpaper:

- Use an appropriate high-quality adhesive for your wall type. You can use regular powder wallpaper glue. Nothing special.
- Apply the glue to the wall.
- For a large order, please unfold it and roll it like a cigarette, then begin hanging it. If it is for a small wall, you can simply hold it up and hang it on the wall.
- Gently smooth out the wallpaper using a plastic smoother to remove any air bubbles. If you notice any bubbles after the installation process, you can simply make a small hole with a needle and then press the air out.

It is as simple as shown in the videos; you can find the links below.
